PROFESSIONAL SUMMARY

Driven, self-motivated software engineer entering the industry. Able to do well under pressure, handle responsibility, and. communicated effectively with teammates. Looking to gain deep knowledge in web and mobile technologies in addition to professional software development and delivery best practices.

PROFESSIONAL EXPERIENCE

August 2021 to Current

Intern Eastslope Studios, Wichita, KS

- Developed websites using HTML, CSS, JavaScript , React, Tailwind, and Alpine languages.
- Studied many Udemy courses, and other online sources.
- Created personal projects to hone my skills.

PROJECTS

To-Do List

September 2021

Developed a Web App functioning as a To-Do List. Through the use of **Vanilla Javascript**, **HTML**, and **CSS**, an interactive, functioning To-Do list was created.

TicTacToe Game

January 2022

Developed a React App that implemented **JSX**, Javascript, CSS, **Google Oauth**, **mongoose**, and **Localhost** to create a personalized score for all registered users in this TicTacToe game.

Responsive Web Design Practice

March 2022

Various projects practicing with Responsive Web Design that implemented **default CSS** in some and **frameworks** in others.

This practice allowed for websites in **any screen size** to appear structured to that screen size.

Map Roulette Community Tickets

June 2022

Contributed to MapRoulette in the creation of community tickets.

Personal Website

June 2022

Created a personal website, learning how to deploy/host websites, create a domain name, and further develop skills in React JS, JSX, and CSS.

EDUCATION

May 2022

High School Diploma

Coppell High School, Coppell, TX

Udemy Courses:

- Modern React with Redux - Stephen Grider
- Node JS: Advanced Concepts - Stephen Grider
- Node with React: FullStack Web Development - Stephen Grider
- Javascript Fundamentals - Bharath Thippireddy
